Presentation to Port
Industries Group, 11:30 a.m.

Groundbreaking Ceremony for new bridge to be held August 8

The Texas Department of Transportation is set to make history with the celebration of the Groundbreaking Ceremony for the new Harbor Bridge. The ceremony, scheduled for Monday, August 8, 2016, will kick-off construction of the longest cable-stay bridge in the United States. State and local officials, community and business leaders and the public are invited to attend the ceremony that will be held at 1 p.m. in the parking lot under the Harbor Bridge, next to the Solomon P. Ortiz Center.

"Be the Bridge to Safety" kicks off campaign focused on project safety

Flatiron/Dragados, LLC, (FDLLC) has made it perfectly clear—SAFETY is the number one priority on the new Harbor Bridge Project. Project Manager Marcos Gonzalez Perez and Project Safety Manager Marvin Wittman held a safety meeting in June with all employees to ensure safety policies and procedures are clearly understood and are the highest priority on the job. Employees were given the opportunity to provide ideas for a project-wide safety slogan. Ideas were narrowed down and votes were cast for the favorite slogan. "Be the Bridge to Safety" was chosen as the safety campaign slogan and will be used in a variety of ways to promote safety across the Harbor Bridge Project. "Creating a culture of 'Safety first' is a must for this project. Ensuring safety protocols and procedures are properly followed by all personnel is non-negotiable," said Marcos Gonzalez Perez, Project Manager. Visit the project website at www.harborbridgeproject.com for additional information on project safety.
