TRAFFIC ADVISORY

For Immediate Release

August 26, 2024

The Harbor Bridge Project announces paving operation to install the final surface layer along I-37 frontage roads and mainlanes from Staples Street to Nueces Bay Boulevard.

Permanent asphalt paving to begin August 27, 2024

CORPUS CHRISTI – Beginning Tuesday, August 27, through September, paving convoys will be in place along I-37 frontage roads and mainlanes to begin installing roadway surface layers from Staples Street to Nueces Bay Boulevard. Frontage roads and mainlanes will be intermittently reduced to one lane as the operation progresses. This final step to complete the roadways marks a significant milestone towards improved connectivity around the South Interchange.

Commuters are urged to be aware of traffic control devices, flaggers, reduced lanes, and slower moving traffic along the frontage roads and mainlanes. All work is weather permitting.

For information about all current and upcoming lane closures related to the Harbor Bridge Project, visit www.harborbridgeproject.com.
