TRAFFIC ADVISORY

For Immediate Release

September 25, 2026

Upcoming Harbor Bridge Project temporary northbound IH 37 full mainlane closure will affect IH 37 motorists leaving the Bayfront and Downtown areas. Motorists should plan for alternate routes.

Temporary northbound IH 37 full mainlane closure Saturday night, September 26.

CORPUS CHRISTI – Saturday, September 26, from 9 pm until 6 am, a northbound full IH 37 mainlane closure will be in effect for one night from N Chapparral Street to the US 181 South Interchange. The temporary closure is necessary to continue the realignment and restoration of IH 37.

Portable message boards will be in place to assist commuters with the following detours.

Motorists leaving the Bayfront and Downtown areas heading toward northbound IH 37, northbound US 181, and southbound SH 286 will follow a detour to turn right on N Chapparral Street, left on Belden Street, left on N Tancanhua Street, and right on the Martin Luther King Drive frontage road for northbound IH 37 and the southbound SH 286 connector ramp, or take the U-turn at Nueces Bay Blvd to merge onto IH 37 for the US 181 connector ramps.

Motorists are urged to be aware of the highway closure, consider using alternate routes, follow all traffic control devices, and to slow down in the work zones. All work is weather permitting.

For information about all current and upcoming lane closures related to the Harbor Bridge Project, visit www.harborbridgeproject.com.
